

TAŞKIŞLA

ITU FACULTY OF ARCHITECTURE / 1850–2026 / 132 × 95 m
Reachability rings — how the building branches out from a single entrance

POSTER 03 — THE TOPOLOGY
181 SPACES · BFS FROM #137
ŞEYMA OLCAY · ADC

One person per room. Distance from the entrance = how deep the room sits; colour = programme. Public & research stand near the door; production & labs are pushed deep.

DISTANCE = STEPS FROM ENTRANCE

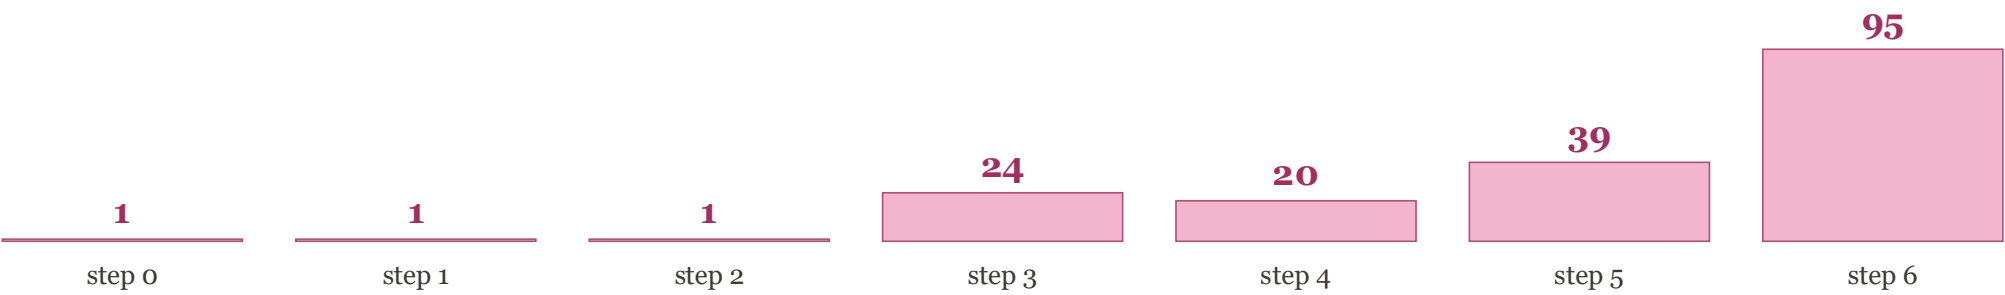

COLOUR = PROGRAMME		avg. step
Public / event		3.3
Research / institute		3.7
Circulation / service		4.6
Teaching studios		5.0
Office / faculty / admin		5.4
Production / labs		5.8

top = most reachable · bottom = deepest / most isolated

SPACES PER STEP

How many rooms sit at each distance from the entrance?

→ Public and event spaces (halls, library, courtyard) and research centres sit closest to the entrance — the most reachable programmes.
→ Offices, faculty rooms and — deepest of all — the workshops and labs are pushed to the far edge; production stays isolated.
